

实战 Nginx配置

/conf/docker.conf

```
server {  
    listen      80;  
    location / {  
        root    /var/www/html;  
        index   index.html index.htm;  
    }  
  
    location ~ \.(gif|jpg|png)$ {  
        root /static;  
        index index.html index.htm;  
    }  
}
```

docker-compose.yml

```
version: '3.1'  
services:  
  nginx:  
    restart: always  
    image: nginx  
    ports:  
      - 8091:80  
    volumes:  
      - ./nginx/conf.d:/etc/nginx/conf.d  
      - ./frontend/dist:/var/www/html/  
      - ./static:/static/
```
